

## 5. 4. Shareholders

BBVA seeks to **create long-term value** for all its stakeholders, particularly for its shareholders. To do so, the Bank is working hard to position itself as a model in the new environment for the banking industry, with a transformation based on and designed for the customers, transforming the business as it is today, creating new business models and maintaining a unique banking model.

Among its Strategic Priorities, BBVA includes **capital optimization** as one of the pillars to achieve its Purpose, which is: to bring the age of opportunity to everyone. Managing capital correctly will allow us to be more aware of the risks, make better decisions and have a clearer vision of the future. All this will help us to ensure greater value for our shareholders.

In **2016** BBVA Group:

- Has improved its ROE to 6.7%, from 5.2% of 2015.
- Has increased its ROA to 0.64%, from 0.46% of 2015.
- Continues to demonstrate a solid risk profile, with an NPL ratio down 48 basis points over the year to 4.9% as of 31-Dec-2016, and a cost of risk down 22 basis points to 0.84% (cumulative figure for 2016).
- Maintains sound capital adequacy ratios that are above legal requirements, with a fully-loaded CET1 of 10.9% as of 31-Dec-2016, an improvement of 58 basis points over the last twelve months.

The Bank has also had to deal with a complex environment in 2016; marked by low interest rates in Europe and the United States; a slowdown in growth in developed economies; a difficult political situation in a number of regions, growing regulatory pressure; and the transformation of the banking industry mentioned earlier, with the entry of new competitors (startups and FinTech) and the increased use of mobile devices as the customers' channel of choice.

In this context, the performance of the main **stock-market indices** has varied greatly over the last twelve months. The Stoxx 50 lost 2.9%, while in the Eurozone the Euro Stoxx 50 gained 0.7% and in Spain, the Ibex 35 fell by 2.0%. The S&P 500, which tracks the share prices of U.S. companies, closed the year up 9.5%, most of the gain being in the second half of the year.

In the **banking sector**, the Stoxx Banks index of European banks, including those in the United Kingdom, slowed its decline of the first half of the year, and closed 2016 with a decline of 6.8%. The same trend is reflected in the Eurozone bank index, the Euro Stoxx Banks, which lost 8.0%. In the United States, the S&P Regional Banks sector index gained 32.4% in 2016, with the growth focused at the end the year following the results of the U.S. elections.

The **BBVA share** performed relatively better in 2016 than the European banking system as a whole. As of December 31, 2016, the BBVA share price was €6.41, a rise over the quarter of 19.2% and a year-on-year decline of 4.8%.

As regards **shareholder remuneration**, two cash dividends have been paid for a gross €0.08 per share each. These payments were made on July 11, 2016 and January 12, 2017. The Board of Directors of BBVA also decided at its meetings on March 31 and September 28, 2016, to carry out two capital increases against voluntary reserves to implement the “dividend-option” system, in accordance with the terms agreed at the Annual General Meeting of March 11, 2016. In the first increase, the holders of 82.13% of the rights opted to receive new shares, while in the second, the figure was 87.85%. These percentages once more confirm the popularity of this remuneration system among BBVA shareholders. In the [Note number 4 of the Consolidated Financial Statements, Management Report and Auditors’ Report](#), more information about BBVA Group shareholder remuneration system is included.

The number of BBVA shares as of 31-Dec-2016 is 6,566,615,242. The **number of shareholders** is 935,284. Residents in Spain hold 45.4% of the share capital, while the percentage owned by non-resident shareholders stands at 54.6%. It is worth noting that at the last Annual General Meeting both institutional and minority shareholders gave their mass support in a large turnout in favor of the points on the agenda. The percentage approving the annual accounts was over 99%, representing a very strong backing for the management of BBVA.
